All participants (applicant, applicant's representative, PTO personnel):

(1) Ronald Abelson. (3) \_\_\_\_\_.

(2) Mr. Wrist. (4) \_\_\_\_\_.

Date of Interview: 5/25-26/2004.

Type: a) Telephonic b) Video Conference

Exhibit shown or demonstration conducted: d) Yes e) No.  
If Yes, brief description: \_\_\_\_\_.

Claim(s) discussed: 1,7 and 8.

Agreement with respect to the claims f) was reached. g) was not reached. h) N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Wrist agreed to resubmit and clarify the claims from 12/23/2003. Particularly, the term "predetermined value" in the independent claims has been clarified to point out there is only one "predetermined value" and not a plurality. Furthermore, Mr. Wrist agreed to fix antecedent basis problems found in claim 7.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. ## Summary of Record of Interview Requirements

### **Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record**

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement was reached at the interview.

### **Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews**

#### **Paragraph (b)**

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

#### **37 CFR §1.2 Business to be transacted in writing.**

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,  
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

#### **Examiner to Check for Accuracy**

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/23/03 has been entered.

***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this amendment was given in telephone interviews with Mr. Wrist on 5/25/2004 and 5/26/2004.

### 3. Reasons for Allowance

Regarding claims 1, 7, and 8, Hiroshima (US 5,801,781) teaches an encoding apparatus (fig. 4 box 32) for variable

Art Unit: 2666

length packetizing variable-length encoded image data (fig. 4 Video ES Stream, MPEG1 system streams, col. 2 lines 51-54) by a packet format in which a header of a packet has a code area indicating the value of the length of the packet (fig. 6 box 114, col. 2 lines 51-54).

The system comprises an inputting means for inputting variable length encoding image data that includes a picture header indicating the start of one picture (fig. 4: Video ES stream, fig. 6 box 24).

The system comprises a header detecting means for detecting the picture header input by said inputting means (fig. 4: Video ES stream, fig. 6 box 24, analyzes the ES header, col. 2 lines 51-53).

The system comprises a data length detection means (analyzes the header, extracts the packet length, col. 2 lines 51-54) for detecting whether a data length of variable length encoding image data for one frame input reaches a predetermined value (fig. 4 box 34, divides each video PES packet into a TS packet of length 188 bytes, col. 8 lines 4-7). Note the predetermined value is 188 bytes.

Art Unit: 2666

The system comprises packetizing means (fig. 4 box 32) for variable-length packetizing the variable-length encoding image data (fig. 4 box 32, col. 2 lines 58-60)

The packetizing means divides a data frame into said predetermined value (188 bytes, col. 8 lines 4-7) and performs packetizing in case the data length of variable length encoding image data of the frame is larger than said predetermined value (fig. 4 box 34, divides each video PES packet into a TS packet of length 188 bytes, col. 8 lines 4-7), and performs packetizing without dividing said variable-length encoding image data in case the data length of variable length encoding image data of the frame is lower than the predetermined value (fixed length of 188 bytes, col. 8 lines 4-7). Note, if the input frame is less than 188 bytes than no packet division occurs.

As previously stated, although Hiroshima teaches a code area indicating a packet length, the reference is silent on the code area describes a code indicating a packet length in case that the packet length is less than or equal to a predetermined value, and describes a code indicating not to decide a packet length in case the packet length is larger than the predetermined value.

AAPA teaches the code area (pg. 2 lines 15-19) and the code area describes a code indicating a packet length in case that the packet length is less than or equal (0x0001, 0xffff, pg. 2 lines 15-19) to a predetermined value (0xffff, pg. 2 lines 19-20, pg. 3 lines 22-24), and describes a code indicating not to decide a packet length in case the packet length is larger than the predetermined value (0x0000, pg. 2 lines 19-20, pg. 3 lines 2-4, pg. 3 lines 22-24).

However, the predetermined value of Hirohashi is not related to the predetermined value of AAPA.
